News and Highlights

ZERO CLIENTS

The Zero Client is a revolutionary new way of supplying standard office applications to your business. As a front-end device designed for a desktop virtualization environment, it delivers a full desktop experience at a fraction of the normal cost. The Zero Client is a manageable, space-saving solution for large deployments offering exceptional security, an extremely long lifecycle, excellent reliability and absolutely no noise during operation. Thanks to Desktop Virtualization, a Zero Client deployment allows a business to deploy IT resources flexibly and react quickly to changing users and working locations.

STYLISTIC Q550

As a busy mobile professional, you want a Slate PC which is as good at working as your after-hours device is at playing. The STYLISTIC Q550 is the first slate to really work for you whether you're in a large corporation, government or small businesses. It delivers an excellent usability experience, with flexible options for creating business content and collaborating with others. Being Windows® 7 Professional based, it integrates with institutional platforms and provides security for enterprises with users who work on the move.

LIFEBOOK T901

The Fujitsu LIFEBOOK T901 is an ultra versatile lightweight convertible notebook for the professional user. Its brilliant, bi-directional rotatable, high-bright LED display including LED rotation indicators is a pleasure to use. With the LIFEBOOK T901 you can either work with multiple finger-touch or with the multifunctional pen. Berliner Glass ensures highest reliability.

**LIFEBOOK S
Series**

The LIFEBOOK S Series gives professional users the optimum combination of performance, modularity and flexibility: the functionality and ease of use of a desktop in a slimline, lightweight package. The integrated modem, network adapter, optional Bluetooth and wireless LAN are complemented by a multifunctional bay. The latest Intel Core 2Duo technology provide you long battery life away from the power socket.

**LIFEBOOK E
Series**

The LIFEBOOK E Series always follows a simple philosophy: only the best will do. Top notch performance with only 2.7 kg makes this notebook as one of the lightest in its class. The comprehensive security features, separate SmartCard reader, TPM and Fingerprint modules make your sensible data safe and secure – anytime, anywhere.

Take advantage of the growing network of wireless working and catch up emails where ever you are via optional embedded UMTS.

**LIFEBOOK P
Series**

The LIFEBOOK P Series fits in any bag - meeting the most demanding airport restrictions. At only 1.3 kg this lightweight combines superior style with exceptional performance and state-of-the-art connectivity, including embedded mobile broadband access and excellent communications ability. Thanks to video conferencing support with the integrated ConfCamera, this 12.1-inch screen beauty is truly a maximum. It provides all standard interfaces, and tops it off with a exceptional long battery run time. The integrated EcoButton extends the battery life even further. In short, true mobility becomes reality.

The Fujitsu LIFEBOOK NH751 notebook is a mobile cinema that enables users to experience their films, photos, social networking and games in stunning quality on a brilliant widescreen 43.9 cm (17.3-inch) display with powerful NVIDIA® GeForce® GT 525M discrete graphics with NVIDIA® Optimus™ technology, whenever and wherever they want. While the spill-resistant keyboard provides extra reliability, high-gloss black finish, frameless display and

outstanding slim profile make the notebook a real head-turner.

The Fujitsu Thin Clients are perfect devices for server-based computing and Virtual Workplace solutions.

High energy-efficiency and silent operation without fans and rotating disk drives guarantee a pleasant working environment and the lowest running costs.

Fujitsu presents a range of PCs characterized by high ergonomic standards, sophisticated product concepts and the best economy. Fujitsu has the right system to suit every customer's requirements.

0-Watt PC - equipped with innovative technology from Fujitsu. Our patented 0-Watt PC technology reduces energy consumption in off- / hibernating mode to 0.0 watts, without reducing manageability.

Do you want to access your workstation remotely? Then the CELSIUS RemoteAccess solution is the right choice for you. It enables you to separate your hardware from data input and output while keeping at the same time the real workstation user experience and performance. With the CELSIUS M470, CELSIUS R570 and CELSIUS R670 our offering of mid-range and high-end workstations got a refresh to meet highest demands.

The PRIMERGY SX940 S1 Direct Attached Storage Blade Disk

The new Fujitsu displays of the P Line ECO provide all the proven features superior displays can offer and additional unique energy saving solutions like 0-watt power save mode and automatic brightness control. The new 22-inch wide is the first with the new standard TCO Displays 5.0.

Always something new in the Peripherals Portfolio: e.g. keyboards and wireless sets in glossy piano black design fitting perfectly to the new lifestyle displays. Accessories and Security Devices according to latest technologies meet the latest market needs.

PRIMERGY TX industry standard tower servers: efficient, rock solid, record-breaking performance. PRIMERGY TX servers benefit from over 20 years pioneering work in the field of Green IT. That is how TX servers reach industry – leading performance per watt ratios, lowering the environmental impact and running costs. TX servers can easily be managed locally or remotely via the PRIMERGY ServerView Suite, saving IT admin costs. That's efficient performance. Our made-to-measure service packages take care of your system every step of the way. Rest assured, PRIMERGY TX servers are put through 5000 boot cycles - that's rock solid performance. PRIMERGY TX servers are flexible systems capable of using up to two processors and up to 20 hard disks. Tower to rack mounting kits are available to move to a consolidated rack infrastructure. TX servers have a tradition of setting record-breaking performance levels. So, whether you use them as tower or rack servers, for file, print or application purposes, you will benefit from record-breaking performance. PRIMERGY TX: a tower of strength.

The PRIMERGY SX940 S1 Direct Attached Storage Blade Disk can be used to extend the internal storage capacity of PRIMERGY BX92x Server Blades. A maximum of four internal disk drives greatly extends the maximum amount of disk storage of a Server Blade. One Storage Blade occupies a Blade slot within the PRIMERGY BX900 S1 system unit; it is positioned either on the left or right to an adjacent BX92x Server Blade, or between the two. The 1x 4 or 2x 2 disk drives of one SX940 S1 are driven by 1 or 2 integrated, highly functional SAS/RAID controllers with 512 Mbyte cache and BU. Each controller provides RAID levels 0, 1, 5 and 6. The connection to each Server Blade is realized via a midplane link to the high performing PCIe x4 interfaces of each Server Blade's system board.

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

Professional Products Positioning

ZERO CLIENTS

The Zero Client is a revolutionary new way of supplying standard office applications to your business. As a front-end device designed for a desktop virtualization environment, it delivers a full desktop experience at a fraction of the normal cost. The Zero Client is a manageable, space-saving solution for large deployments offering exceptional security, an extremely long lifecycle, excellent reliability and absolutely no noise during operation. Thanks to Desktop Virtualization, a Zero Client deployment allows a business to deploy IT

STYLISTIC

The STYLISTIC ST Series is thin, approximately A4 in size, only 1.6 kg and replaces your need for paper and clipboard. Boasting a robust, high-tech design, it offers a 12.1-inch display making it ideal for working while standing or walking, indoors or outside. The Intel® Centrino® Core 2 Duo processor means you can work for a whole business day. And outstanding connectivity with embedded broadband access, WLAN and Bluetooth means you can get in a full day of work without having to return to the office.

FUTRO

The FUTRO product line of smart, expandable thin clients is the ideal solution for server-based networks, particularly in terms of availability and data security. The user can neither access the operating system nor store data on the smart terminal.

ESPRIMO

Our PCs provide pure performance while balancing economic and environmental considerations. ESPRIMO PCs feature state-of-the-art technology from AMD and Intel® and are the perfect basis for productive working environments. They are quiet and cool with intelligent ergonomic designs, perfect manageability and security features. To make them as environmentally aware as possible, they are built with especially selected materials to minimize the impact on the environment.

CELSIUS

Computing power, memory space, graphics systems, expansion possibilities – even the most powerful of standard PCs are quick to reach their limits outside classic office and communication applications. Application fields such as simulation, animation, construction, and digital content creation require systems that offer maximum performance on all levels: CELSIUS workstations.

**Displays &
Peripherals**

Positioned in three segments the Fujitsu displays offer the right model for every desire - from multifunctional all-rounders, advanced displays, which are highly ergonomic and comfortable, also for entertainment, and the superior class for highest demands in terms of performance, graphics and multimedia.

Input devices for every desire: wired and wireless, optical and laser technology, all according to latest ergonomix standards.

PRIMERGY

PRIMERGY is based on the standard architecture for good reason. Due to their high level of standardization, x86/EM64T and Dual-Core / Quad-Core servers deliver the best price/performance ratio. The Fujitsu extensive product range, coupled with more than 20 years of experience in the IT market, means that we can build reliable and flexible IT infrastructures for our customers. PRIMERGY servers are the ideal choice for ensuring greater competitiveness and success in modern e-business environments.

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

Positioning Zero Clients

ZERO CLIENTS

The Zero Client is a revolutionary new way of supplying standard office applications to your business. As a front-end device designed for a desktop virtualization environment, it delivers a full desktop experience at a fraction of the normal cost. The Zero Client is a manageable, space-saving solution for large deployments offering exceptional security, an extremely long lifecycle, excellent reliability and absolutely no noise during operation. Thanks to Desktop Virtualization, a Zero Client deployment allows a business to deploy IT resources flexibly and react quickly to changing users

and working locations

PORTABLE ZERO CLIENTS

The migration from fat client to virtual desktop infrastructures is gaining in popularity. Fujitsu's Zero Client MZ900 leverages this trend while enabling existing desktops and notebooks to be used as the virtual desktop device. This allows you to access personal virtual desktops from anywhere. Finally you are now able to realize cost savings while benefitting from the advantages of Zero Client virtualization - maximum flexibility, maximum savings.

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

Zero Clients Series

The Zero Clients D602 and DZx are a revolutionary new way of supplying standard office applications to your business. As a silent, space-saving front-end device designed for a desktop virtualization environment, the Zero Clients securely and reliably delivers a full desktop experience at a fraction of the normal cost.

Positioning Notebooks

**LIFEBOOK S
Series**

The LIFEBOOK S Series gives professional users the optimum combination of performance, modularity and flexibility: the functionality and ease of use of a desktop in a slimline, lightweight package. The integrated modem, network adapter, optional Bluetooth and wireless LAN are complemented by a multifunctional bay. The latest Intel Core 2Duo technology provide you long battery life away from the power socket.

**LIFEBOOK E
Series**

The LIFEBOOK E Series always follows a simple philosophy: only the best will do. Top notch performance with only 2.7 kg makes this notebook as one of the lightest in its class. The comprehensive security features, separate SmartCard reader, TPM and Fingerprint modules make your sensible data safe and secure – anytime, anywhere.

Take advantage of the growing network of wireless working and catch up emails where ever you are via optional embedded UMTS.

**LIFEBOOK P
Series**

The LIFEBOOK P Series fits in any bag - meeting the most demanding airport restrictions. At only 1.3 kg this lightweight combines superior style with exceptional performance and state-of-the-art connectivity, including embedded mobile broadband access and excellent communications ability. Thanks to video conferencing support with the integrated ConfCamera, this 12.1-inch screen beauty is truly a maximum. It provides all standard interfaces, and tops it off with a exceptional long battery run time. The integrated EcoButton extends the battery life even further. In short, true mobility becomes reality.

LIFEBOOK NH751

The The Fujitsu LIFEBOOK NH751 notebook is a mobile cinema that enables users to experience their films, photos, social networking and games in stunning quality on a brilliant widescreen 43.9 cm (17.3-inch) display with powerful NVIDIA® GeForce® GT 525M discrete graphics with NVIDIA® Optimus™ technology, whenever and wherever they want. While the spill-resistant keyboard provides extra reliability, high-gloss black finish, frameless display and outstanding slim profile make the notebook a real head-turner.

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

LIFEBOOK SH531

The compact Fujitsu LIFEBOOK SH531 is the perfect everyday mobile companion at home, in the office, at school or on the go. With its 33.8 cm (13.3-inch) display this 1.9 kg notebook is small and light enough for every trip. Stay connected with family and colleagues via WLAN, or upgrade your LIFEBOOK SH531 with an external UMTS solution in its 34 mm ExpressCard slot.

LIFEBOOK P770

Small, lightweight and nevertheless high performance? The answer to those requirements is the LIFEBOOK P770. With one of the smallest footprints in the 12-inch market and weighing only 1.4 kg, it offers the user quite a range of goodies: all standard interfaces including HDMI, 3G/UMTS, WLAN and Bluetooth, an integrated webcam and long battery runtime. As data security is immensely important for mobile users, the LIFEBOOK P770 meets such requirements thanks to its smartCard controller, fingerprint sensor and optional TPM.

Positioning FUTRO thin clients

FUTRO S100

The compact and cost-efficient FUTRO S100 is your perfect entry thin client for Server-Based Computing and Virtual Workplace solutions. High energy-efficiency and silent operation without fans and rotating disk drives guarantee a pleasant working environment and lowest running costs.

**FUTRO S450
FUTRO S500**

This small but powerful and expandable thin client is your ideal client for server-based computing. No matter if used with RDP or ICA protocol, as thin client for Windows terminal services or as Java based network terminal, FUTRO S Series always helps you to minimize the Total Cost of Ownership. Low power consumption, no fans and rotating drives turn the FUTRO S Series into a very reliable and silent thin client.

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

FUTRO S100

The compact and cost-efficient FUTRO S100 is your perfect entry thin client for Server-Based Computing and Virtual Workplace solutions. High energy-efficiency and silent operation without fans and rotating disk drives guarantee a pleasant working environment and lowest running costs.

FUTRO S100					
FUTRO S100	S100, 10/100 Mbit/s Fast Ethernet LAN, Processor VIA Eden ULV 500, Interface: 1x serial extern, 2x PS/2 (1x mouse, 1x keyboard), 4x USB2.0 (2x front side, 2x rear side) 1x Monitor, 1x Audio out, 1x Headphone Out, 1x micro, 1x LAN RJ45, Power supply external, Fulfills EPA 5.0 requirements		S26361-K420-V100	144,00	

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

FUTRO S450 & S500

Why take a fully featured PC for server based computing, when you can have everything you need in a reliable small form factor thin client? The FUTRO S Series is ideally suited for Windows Terminal Server computing. The server executes the applications, the screen is displayed on the client. Your data is saved secure on the server and is therefore protected against loss.

Also the operating system is stored secure on a flash memory and safe from unauthorized changes due to a write protected file system. Smart administration tools help to update the client easily. Without fan and rotating drives, the FUTRO S Series is reliable, fail-safe and silent.

All that turns the FUTRO S Series into a minimizer of Total Cost of Ownership.

FUTRO S700

The powerful FUTRO S700 is your ideal thin client for server-based computing and virtual workplac solutions. An optimized thermal concept and the latest flash drive technology make fans and rotating parts obsolete. This results in superior ergonomics due to noiseless operation and significantly increased reliability. The outstanding manageability solution makes it easy to administer while reducing total cost of ownership. Latest AMD™ Fusion® technology offers excellent performance at a reasonable price.

Positioning ESPRIMO

ESPRIMO C

The ESPRIMO C Green PC is your perfect partner for smallest space. The ultra small form factor PC combines latest technology with environmentally conscious product design to minimize impact on the environment. With its silent product concept and service friendly cabinet, the ESPRIMO C offers best working conditions.

ESPRIMO E

Put your performance on the desk. The ESPRIMO E Green PC is a small form factor PC setting new desktop standards. ESPRIMO E offers highly reliable computing power for every business demands. Due to latest technologies, highest ergonomic and silent product design the ESPRIMO E Green PC is for every customer who requires high computing power. It can be positioned either horizontally or vertically.

ESPRIMO P

Your every day business performer. The ESPRIMO P Green PC microtower offers highest performance and best expandability. With various system modifications, the ESPRIMO P is tailored to every business use to reasonable value. Working with ESPRIMO P is stress free. It is ergonomic, silent and reliable.

ESPRIMO Q

The ESPRIMO Q Series opens a new chapter on performance, size and design. With its extremely small and stylish design, the new Mini PC satisfies a so far unanswered business need: PC becomes fashionable. Add an eye catcher to your desk.

Windows®. Life without Walls™.
Fujitsu recommends Windows 7.

ESPRIMO C

Don't let yourself be fooled from the size of the ESPRIMO C. Although it's an ultra small form factor system presenting latest chipset and processor technologies and offers Multibay functionality like a notebook. Make profit from the small form factor design because you need less space.

ESPRIMO PCs are built with specially selected material to minimize impact on the environment. Production and selection of material are optimized to the aspect of environmental consciousness. Development, production, transportation and recycling are aligned to strong internal environmental directives.

Working with the ESPRIMO C is stress-free. It is small, ergonomic, silent and reliable. It is easy to administrate and secure. In short, this highly reliable premium PC is particularly tailor-made to your business demands.

ESPRIMO P

Combine high expandability with latest technology. With its expandability and its chipset diversity ESPRIMO P is the right solution for customer requiring a high quality microtower with a managed lifecycle up to 18 month

ESPRIMO PC is built with specially selected material to minimize impact on the environment. Production and selection of material is optimized to the aspect of environmental consciousness. Development, production, transportation and recycling are aligned to strong internal environmental directives.

Working with the ESPRIMO P Series is stress-free: it is ergonomic, silent and reliable. It is easy to administer and secure. Different product specifications are the basis to fit the ESPRIMO P best in your working environment. In short, this highly reliable PC is particularly tailor-made to your business demands.

ESPRIMO Q

The ESPRIMO Q Series opens a new chapter on performance, size and design.

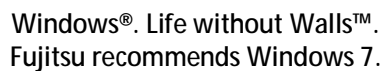

With its extremely small and stylish design, the Mini PC satisfies a so far unanswered business need: PC becomes fashionable.

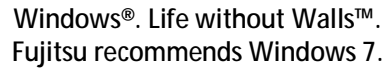

Powered by the latest Intel® Mobile Technology, the ESPRIMO Q Series fulfills the requirements of a fully-fledged PC.

Don't buy expandability you never use and gain more space on your desk. You'll profit from its low energy consumption, as well as from its whisper silent noise level.

Add an eye catcher to your desk.

Positioning CELSIUS workstations

**CELSIUS H
Series**

CELSIUS H Series. Powerful mobile workstation. If you run power-hungry 3D applications that demand no compromise on the graphics side, you'll appreciate the CELSIUS H. The system offers the power of a full-fledged workstation: Editing 3D OpenGL graphics in real time, running computer simulations and computing multimedia animations wherever you are.

**CELSIUS W
Series**

CELSIUS W Series. High-End PC / Entry-Level workstation
If you need more power and more expandability than a desktop PC can offer, choose the entry-level workstation CELSIUS W Series. The CELSIUS W Series offers workstation performance - in combination with fastest generation of processors, chipsets and graphic cards.

**CELSIUS M
Series**

CELSIUS M Series. Mid-range workstation.
Do you need more power, more memory, more data security, and more expandability than a conventional PC can offer? Then choose the mid-range workstation CELSIUS M Series. CELSIUS workstations are equipped with the very latest technology and system components to deliver high-end performance. CELSIUS are certified for a huge variety of software applications.

**CELSIUS R
Series**

CELSIUS R Series. High-end workstation.
You need a powerful, dual-processor workstation and want to choose from a large range of graphics subsystems. The CELSIUS R Series is ready for all challenges. What is more, the CELSIUS R Series offers great expandability. Latest technology combined with top performance components makes this the optimum hardware choice for power hungry applications.

**CELSIUS
RemoteAccess**

CELSIUS RemoteAccess

Do you want to access your workstation remotely? Then the CELSIUS RemoteAccess solution is the right choice for you. It enables you to separate your hardware from data input and output while keeping at the same time the real workstation user experience and performance.

(See Accessories page)

CELSIUS H710

The Fujitsu CELSIUS H710 delivers workstation power in a 39.6 cm (15.6-inch) notebook form factor. Featuring the 2nd generation Intel® Core™ processors and powerful NVIDIA® graphics, the CELSIUS H710 delivers uncompromising performance without tethering you to the office. Secure and reliable, it is ideal for business environments such as CAD and digital content creation.

CELSIUS M470

Your new "thoroughbred" workstation

CELSIUS M470

The CELSIUS M Series is the single-processor platform with a particularly well-balanced ratio between price and performance. The CELSIUS M470 incorporates the latest advances in performance technologies enabling you to meet increasingly demanding schedules using professional applications such as CAD/CAE, virtual reality and finance. To ensure that those tasks run with maximum system stability, the CELSIUS M470 is certified and optimized for all leading workstation ISV applications. The premium status display provides comprehensive diagnostic information at a glance even without running the OS.

CELSIUS R570

Your compact "powerhouse" workstation

CELSIUS R570

The CELSIUS R series is the dual-processor platform in the mid-range and high-end sector with a great selection of graphics subsystems. Energy efficiency and state-of-the-art microprocessor technology make this compact powerhouse the ideal solution for fields of activity, such as computer aided design, engineering, mechanical design, simulation, virtual reality, visualization, digital content creation and finance. To ensure that those tasks run with maximum system stability, the CELSIUS R570 is certified and optimized for all leading workstation ISV applications. The premium status display provides comprehensive diagnostic information at a glance even without running the OS.

CELSIUS R670

The new uncompromising high-end workstation

CELSIUS R670

The CELSIUS R series is the dual-processor platform for the mid-range and high-end segment with a great selection of graphics subsystems. Through the combination of standard-setting microprocessor technology and energy efficiency, the generous CELSIUS R670 embodies with its numerous expansion options the ideal system for memory-consuming applications. The CELSIUS R670 is the ideal solution for business segments, such as computer aided design and engineering, mechanical design, simulation, virtual reality, visualization, digital content creation and finance. To ensure that those tasks run with maximum system stability, the CELSIUS R670 is certified and optimized for all leading workstation ISV applications. The premium status display provides comprehensive diagnostic information at a glance even without running the OS.

Base unit configurations

CELSIUS R670-2

CELSIUS R670-2	, Base unit, prepared for rack mounting (rack mount kit optionally available), CEB systemboard D2618, power supply 1000 W, optical USB tilt scroll mouse;, Chipsets: Intel 5520, Intel 82801JB I/O Controller Hub (ICH10);, Premium Status-LCD, Syleus system management, LSI-SAS Controller 1068E, DeskView license included., , Slots: , 12 DIMM-slots (each CPU with 6), 6 channels (each CPU with 3); , 6 expansion slots: 2x PCIe Gen2 x16, 3x PCIe x4 Gen2 (mechanical PCIe x8), 1x PCI (32-bit / 33 MHz), , Onboard I/O-devices: 2xnetwork controller Realtek 8111CP (2 Ports, GB-LAN, ASF 2.0), SAS Controller (8 ports, RAID 0 and 1E), Serial ATA Controller (4 Ports), FireWire controller (IEEE 1394a), HD-audio Realtek ALC 663, , Bays: , 3x 5,25" FlexiBays externally accessible and 4 internal HDD-bays , , Front interfaces: 2x USB 2.0, 1x audio out, 1x audio in. 1x FireWire (IEEE 1394a), , Rear interfaces: 2x LAN RJ45, 1x eSATA, 6x USB 2.0, 2x audio in, 1x audio out, 1x S/PDIF out, 2x PS/2 for mouse and keyboard, 1x serial, 1x FireWire (IEEE 1394a), , Internal interfaces: 2x USB 2.0, 1x USB 2.0 with standard connector, , Embedded security (TPM 1.2) - Infineon, Disable / Hide TPM option,	S26361-K991-V415	973,00

Category	Description	Details
Product Line A	Model X100	High performance, 100W power, 1000mAh battery.
	Model X101	High performance, 100W power, 1000mAh battery.
	Model X102	High performance, 100W power, 1000mAh battery.
	Model X103	High performance, 100W power, 1000mAh battery.
	Model X104	High performance, 100W power, 1000mAh battery.
	Model X105	High performance, 100W power, 1000mAh battery.
	Model X106	High performance, 100W power, 1000mAh battery.
	Model X107	High performance, 100W power, 1000mAh battery.
	Model X108	High performance, 100W power, 1000mAh battery.
	Model X109	High performance, 100W power, 1000mAh battery.
	Model X110	High performance, 100W power, 1000mAh battery.
	Model X111	High performance, 100W power, 1000mAh battery.
	Model X112	High performance, 100W power, 1000mAh battery.
	Model X113	High performance, 100W power, 1000mAh battery.
	Model X114	High performance, 100W power, 1000mAh battery.
Product Line B	Model Y200	Medium performance, 200W power, 2000mAh battery.
Product Line C	Model Z300	Low performance, 300W power, 3000mAh battery.
Product Line D	Model W400	High performance, 400W power, 4000mAh battery.
Product Line E	Model V500	High performance, 500W power, 5000mAh battery.
Product Line F	Model U600	High performance, 600W power, 6000mAh battery.
Product Line G	Model T700	High performance, 700W power, 7000mAh battery.
Product Line H	Model S800	High performance, 800W power, 8000mAh battery.
Product Line I	Model R900	High performance, 900W power, 9000mAh battery.
Product Line J	Model Q000	High performance, 1000W power, 10000mAh battery.
Product Line K	Model P1000	High performance, 1100W power, 11000mAh battery.
Product Line L	Model O2000	High performance, 1200W power, 12000mAh battery.
Product Line M	Model N3000	High performance, 1300W power, 13000mAh battery.
Product Line N	Model M4000	High performance, 1400W power, 14000mAh battery.
Product Line O	Model L5000	High performance, 1500W power, 15000mAh battery.
Product Line P	Model K6000	High performance, 1600W power, 16000mAh battery.
Product Line Q	Model J7000	High performance, 1700W power, 17000mAh battery.
Product Line R	Model I8000	High performance, 1800W power, 18000mAh battery.
Product Line S	Model H9000	High performance, 1900W power, 19000mAh battery.
Product Line T	Model G0000	High performance, 2000W power, 20000mAh battery.
Product Line U	Model F10000	High performance, 2100W power, 21000mAh battery.
Product Line V	Model E20000	High performance, 2200W power, 22000mAh battery.
Product Line W	Model D30000	High performance, 2300W power, 23000mAh battery.
Product Line X	Model C40000	High performance, 2400W power, 24000mAh battery.
Product Line Y	Model B50000	High performance, 2500W power, 25000mAh battery.
Product Line Z	Model A60000	High performance, 2600W power, 26000mAh battery.
Product Line AA	Model Z70000	High performance, 2700W power, 27000mAh battery.
Product Line AB	Model Y80000	High performance, 2800W power, 28000mAh battery.
Product Line AC	Model X90000	High performance, 2900W power, 29000mAh battery.
Product Line AD	Model W00000	High performance, 3000W power, 30000mAh battery.
Product Line AE	Model V100000	High performance, 3100W power, 31000mAh battery.
Product Line AF	Model U200000	High performance, 3200W power, 32000mAh battery.
Product Line AG	Model T300000	High performance, 3300W power, 33000mAh battery.
Product Line AH	Model S400000	High performance, 3400W power, 34000mAh battery.
Product Line AI	Model R500000	High performance, 3500W power, 35000mAh battery.
Product Line AJ	Model Q600000	High performance, 3600W power, 36000mAh battery.
Product Line AK	Model P700000	High performance, 3700W power, 37000mAh battery.
Product Line AL	Model O800000	High performance, 3800W power, 38000mAh battery.
Product Line AM	Model N900000	High performance, 3900W power, 39000mAh battery.
Product Line AN	Model M000000	High performance, 4000W power, 40000mAh battery.
Product Line AO	Model L1000000	High performance, 4100W power, 41000mAh battery.
Product Line AP	Model K2000000	High performance, 4200W power, 42000mAh battery.
Product Line AQ	Model J3000000	High performance, 4300W power, 43000mAh battery.
Product Line AR	Model I4000000	High performance, 4400W power, 44000mAh battery.
Product Line AS	Model H5000000	High performance, 4500W power, 45000mAh battery.
Product Line AT	Model G6000000	High performance, 4600W power, 46000mAh battery.
Product Line AU	Model F7000000	High performance, 4700W power, 47000mAh battery.
Product Line AV	Model E8000000	High performance, 4800W power, 48000mAh battery.
Product Line AW	Model D9000000	High performance, 4900W power, 49000mAh battery.
Product Line AX	Model C0000000	High performance, 5000W power, 50000mAh battery.
Product Line AY	Model B10000000	High performance, 5100W power, 51000mAh battery.
Product Line AZ	Model A20000000	High performance, 5200W power, 52000mAh battery.
Product Line BA	Model Z30000000	High performance, 5300W power, 53000mAh battery.
Product Line BB	Model Y40000000	High performance, 5400W power, 54000mAh battery.
Product Line BC	Model X50000000	High performance, 5500W power, 55000mAh battery.
Product Line BD	Model W60000000	High performance, 5600W power, 56000mAh battery.
Product Line BE	Model V70000000	High performance, 5700W power, 57000mAh battery.
Product Line BF	Model U80000000	High performance, 5800W power, 58000mAh battery.
Product Line BG	Model T90000000	High performance, 5900W power, 59000mAh battery.
Product Line BH	Model S000000000	High performance, 6000W power, 60000mAh battery.
Product Line BI	Model R1000000000	High performance, 6100W power, 61000mAh battery.
Product Line BJ	Model Q2000000000	High performance, 6200W power, 62000mAh battery.
Product Line BK	Model P3000000000	High performance, 6300W power, 63000mAh battery.
Product Line BL	Model O4000000000	High performance, 6400W power, 64000mAh battery.
Product Line BM	Model N5000000000	High performance, 6500W power, 65000mAh battery.
Product Line BN	Model M6000000000	High performance, 6600W power, 66000mAh battery.
Product Line BO	Model L7000000000	High performance, 6700W power, 67000mAh battery.
Product Line BP	Model K8000000000	High performance, 6800W power, 68000mAh battery.
Product Line BQ	Model J9000000000	High performance, 6900W power, 69000mAh battery.
Product Line BR	Model I00000000000	High performance, 7000W power, 70000mAh battery.
Product Line BS	Model H100000000000	High performance, 7100W power, 71000mAh battery.
Product Line BT	Model G200000000000	High performance, 7200W power, 72000mAh battery.
Product Line BU	Model F300000000000

Positioning Displays

P Line

Superior Displays - P Line and XL Line
A feast for your eyes and a pleasure to use for work or multimedia:

- Ultra wide viewing angle and outstanding color performance
- 0.0 watt standby (P Line)
- Maximum connectivity
- Most advanced technical features

XL Line

B Line

Advanced Displays - B Line and SL Line
Efficiency for intensive office or entertainment usage:

- Optimum ergonomics (B Line) with height adjust, tilt, swivel and on standard formats as well rotation
- Energy efficient: power save panel EPA 5.0, ECO button, EPEAT Silver
- Ultra high contrast (SL Line)
- High-flexible connectivity:
e.g. 2 x HDMI (on selected models),
DVI (HDCP) for wide screen displays

SL Line

A/E Line

All-round Displays - A/E Line and L Line
Enter the world of LCD displays at an affordable price:

- Ergonomic or lifestyle design
- TCO'03 or TCO Displays 5.0
- Energy efficient - EPA 5.0, EPEAT Silver

L Line

Displays

P Line

- 0-Watt power save mode*
- Auto Brightness Control*
- UVA (Ultra Wide Viewing Angle)*
- Enhanced ergonomic height adjust stand
- HDMI for wide screen models
- Ready for Manageability
- 5th generation models in new design language

*: on selected models

XL Line

- Advanced contrast ratio (ACR) up to 20,000:1
- ECO control button
- Video inputs HDMI, DVI and analog

* featured on selected models

B Line

- Energy saving solutions (as of Summer 2009)
 - Cut energy cost by half (versus Energy Star 4.1)
 - ECO operation mode for Energy Star 5.0
 - ECO button - direct access to ECO mode
- Flexible ergonomic stand
- Height Adjust, Tilt, Swivel, Rotation*
- DVI-D and analog interface
- Manageability

SL Line

- High ACR up to 10,000:1
- 2 x HDMI*, DVI*, analog interface
- Glossy black lifestyle design
- Full HD 1080P support*
- 16:9 ideal video format*
- Headphone jack*

A Line

- Energy saving solutions (as of Autumn 2009)
 - Energy Star 5.0
 - Tilt stand
 - Analog interface
 - Ergonomic Design

L Line

- Extra high ACR up to 10,000:1*
- 16:9* ideal video format
- Fast 5 ms response time
- Lifetime extender
- Theme Mode
- Glossy black lifestyle design

Positioning Input Devices & Security devices

Keyboards & Security

The keyboard is the most important interface between humans and the computer. Our keyboards are designed according to the latest ergonomic development and the non-abrasive laser inscription lasts a lifetime. The security keyboards conform to current market requirements and offer an perfect platform for security applications.

Keyboards & mice

Please look for your favourite keyboard amongst a vast choice of different types. We have the right keyboard for you, no matter if you only need basic functionality or enhanced business typing. For office and a long days work, our Premium Line keyboards are the right ones.

Choose the perfect mouse for your environment: small when on the road, regular sizes for the desk, left and right hand usage, wired or unwired, four way scroll function, high-precise optical or laser technology - whatever you desire!

Security devices

To serve and protect - we take care. There is no choice than our security devices if you want to protect your valuable data from beeing stolen, changed or copied. SmartCard technology helps to protect your data. Accompanying software completes the functionality of your SmartCard.

Input devices and Security

Keyboards

A keyboard is the most important interface between user and computer. All our keyboards are designed to do the job. Reliable, effective and persevering. But what's more: they come in attractive and stylish designs to highlight every working place. There is a choice between wired and wireless keyboards, and also of features like e.g. quick touch buttons or 2 additional USB Ports.

Mice

Mice for every working or private environment. Great choice in different sizes, with or without cable, high precision technology, ergonomic and easy to use.

Security devices

Data are often inestimable worths. But they can be deleted, copied and changed in a short time by anyone. With Fujitsu security devices the access to mobile and stationary systems is effectively secured.

Positioning PRIMERGY Tower Servers

PRIMERGY TX industry standard tower servers: efficient, rock solid, record-breaking performance. PRIMERGY TX servers benefit from over 20 years pioneering work in the field of Green IT. That is how TX servers reach industry – leading performance per watt ratios, lowering the environmental impact and running costs. TX servers can easily be managed locally or remotely via the PRIMERGY ServerView Suite, saving IT admin costs. That's efficient performance. Our made-to-measure service packages take care of your system every step of the way. Rest assured, PRIMERGY TX servers are put through 5000 boot cycles - that's rock solid performance. PRIMERGY TX servers are flexible systems capable of using up to two processors and up to 20 hard disks. Tower to rack mounting kits are available to move to a consolidated rack infrastructure. TX servers have a tradition of setting record-breaking performance levels. So, whether you use them as tower or rack servers, for file, print or application purposes, you will benefit from record-breaking performance. PRIMERGY TX: a tower of strength.

PRIMERGY TX150 S7

The PRIMERGY TX150 S7: the right system for SMEs or non-mission-critical decentralized infrastructures where the main focus is on expandability and availability. The expandability and availability come from the 6 expansion slots (5 of which PCIe Gen 2) and up to 8x 2.5" hot-plug hard disks. Increase the system's availability and energy efficiency through the use of optional redundant power supplies boasting up to 89% energy efficiency. The TX150 S7 also offers up to the latest generation Intel® Xeon® processor 3400 series single processor platform, delivering excellent energy-efficient performance at an attractive price. The PRIMERGY TX150 S7: the one processor tower server – maximized.

Positioning PRIMERGY Rack Servers

**PRIMERGY
RX100 S6**

The RX100 S6 meets the needs of business applications with its technical developments, such as Quad-Core Intel® Xeon® processor 3400 series and the upcoming generation of Intel® Dual-Core CPUs, integrated RAID 0/1/5/6 and a memory of up to 32 GB. It unites the advantages of low-cost SATA or SAS /SSD hard disk technology with a space-saving 1U chassis and a depth of less

**PRIMERGY
RX200 S5**

More for less with regard to data center energy-efficiency. Energy consumption and cooling in data centers is a "burning" issue. The innovative PRIMERGY Cool-safe™ system design of the new RX200 S5 rack server generation provides the right answers.

**PRIMERGY
RX300 S5**

Virtualized environments are the top application for RX300 systems and their new multicore CPUs in the Intel® Xeon® 5500 series. In this situation, several operating systems plus the installed applications have to run simultaneously on one and the same physical hardware. RX300 S5 provides all the platform features required for efficient virtualization.

**PRIMERGY
RX330 S1**

Corporate applications in data center server farms with central deployment and control demand increasing performance. The cost-efficient PRIMERGY RX330 S1 extends the PRIMERGY Rack portfolio and focuses rather on standard than on full feature set in comparison to RX300. RX330 S1 is offering enough local storage capacity to be used as a stand-alone AMD Opteron Quad-Core based application server and for server farms in scale-out environments with medium needs for availability features and

**PRIMERGY
RX600 S4**

4 Socket Multi-Core Xeon 7400 series rack server
Performance, capacity and stability for your critical applications. The exceptional extendability of the RX600 enables even more consolidation of servers and applications with state-of-the-art virtualization solutions and an excellent "best-in-class" efficiency.

**PRIMECENTER
SME**

The PRIMECENTER SME rack is the basis for mounting rack configurations with all Fujitsu products, such as servers, operating devices and storage systems. Based on the industry standards DIN 41494 and IEC 297, the PRIMECENTER SME rack can also accommodate other products on the market that comply with these standards.

PRIMERGY RX100 S7

PRIMERGY RX100 S7: for SMEs and data centers, looking for high availability, scalability and low TCO - in a 1U chassis. SME customers will find the RX100 S7 to be a highly versatile tool, which can be used as a web, file or print server. Data center customers can build on the RX100 S7 as a scalable entry-level virtualization platform, which offers up to Intel® Xeon® processor performance, optional redundant fan and hot-plug power supplies (with up to 94% efficiency!) and onboard dual gigabit LAN. The optional front service LAN will make the lives of data center staff easier too. PRIMERGY RX100 S7: Rack virtualization starts here!

PRIMERGY RX300 S6

The PRIMERGY RX300 S6 is a 2 U rack server which has been optimized for virtualization purposes. It provides high, scalable I/O performance, extensive memory options, support for major hypervisor products and top performance with latest CPU technology. More precisely: 7xPCIe Gen2 prevent I/O bottlenecks, up to 384 GB of memory allow for optimal sizing of virtual environments and latest Intel® Xeon® 5600 series CPUs deliver best-in class performance. With its Cool-safe design elements like optimized cooling of the system and highly efficient power supplies the PRIMERGY RX300 S6 is the right system to face Green IT challenges. This 2U powerhouse is also an excellent choice processes.

PRIMECENTER

PRIMECENTER - 19-inch rack system

19-inch rack technology for all Fujitsu Siemens rack components (PRIMERGY, SPARC Enterprise, PRIMEPOWER, storage products, BS2000) based on the 19-inch rack industry standard

PRIMECENTER Racks for each purpose. Flexible and stackable 12, 24, 38 and 46 horizontal units and the new PRIMECENTER LC (Liquid cooled) Rack. The universal scale-up infrastructure prerequisite for SPARC Enterprise, PRIMEPOWER, PRIMEQUEST, PRIMERGY, Fujitsu storage systems and even most of all existing rackable servers. And - that's not all: often necessary components like uninterruptible power supplies, hubs, routers, (console-) switches and a LAN console are easily to be installed here; this is supported also by the built-in optimal cable management, allowing cost saving serviceability of included components. The installation dimensions of the enclosure make the integration in existing IT environments easy. Thanks to their modular design, the racks can be expanded on-site. All four models are offering the same functionality - only with different sizings and different numbers of horizontal height units behind the secure front door.

New member of the PRIMECENTER family is the new low cost entry PRIMECENTER SME rack, a 42 U rack enclosure capable to host all Fujitsu Siemens servers as well as 3rd party systems at an extremely low price.

PRIMECENTER M1

The trend to consolidation as a result of virtualization and optimization require environments that are more flexible and reliable. Decades of data center experience at Fujitsu result in the latest 19-inch Rack Family. The new Fujitsu PRIMECENTER racks are the foundation for meeting IT data center requirements. The PRIMECENTER Racks are the basis for building perfect data center infrastructures. The PRIMECENTER 19-inch Racks can be used to install Fujitsu solutions as well as third-party products. They meet all requirements for flexibility thanks to the multiple configuration options, cooling and maintenance features. In addition a broad portfolio of optional rack accessories complete the efficient rack infrastructure solutions.

PRIMECENTER SME Rack

Industry Standard Rack

19-inch PRIMECENTER SME in Height of 42 and 24 units

The PRIMECENTER SME rack is the basis for mounting rack configurations with all Fujitsu products, such as servers, operating devices and storage systems. Based on the industry standards DIN 41494 and IEC 297, the PRIMECENTER SME rack can also accommodate other products on the market that comply with these standards.

- Asymmetrical design for ideal cable routing and best air flow
- Capacity 24 or 42 height units, no extra vertical height units
- Capacity 24 or 42 are now also available in 1100mm depth, instead of only 1000mm.
- Full serviceability of servers thanks to telescopic rails for servers with hot-replace components
- All released components for PRIMECENTER rack family can be used as well
- All Fujitsu Siemens rack servers and subsystems, as well as 3rd party rack servers (which fits into PRIMECENTER Racks) can be installed under the same conditions and restrictions (specially for servers with higher weight)
- No anti tilt protection as standard, rack has to be fixed at the ground floor
- Options available on demand at supplier
- Anti tilt protection, roll base, combination lock with numbers, etc

Positioning PRIMERGY Blade Servers

**PRIMERGY
BX900 S1**

The PRIMERGY BX900 S1 is a rack unit that has an installed height of 10U and accommodates 1 to 18 server blades and 1 to 6 storage blades. The energy-efficient Intel Nehalem Quad-Core processors are used in the server blades. Ethernet, Fibre Channel and Infiniband networks are accessed via 8 switch bays. Switches from Cisco, Brocade and Emulex can be used. With its transfer rate of 6.4 Gb/s, the midplane used is the fastest on the market. 100V and 200V power supplies are available. This hardware platform is ideal for server consolidation and virtualization in the datacenter.

**PRIMERGY
BX600 S3**

The PRIMERGY Blade Ecosystem provide high performance and maximum redundancy with minimum rack space, power consumption and cabling effort. PRIMERGY BX600 S3 can be equipped with up to ten Intel or AMD server blades, and are excellently suited for consolidation projects and for front- and mid-tier applications requiring enterprise-class availability, extreme flexibility and power efficiency. Due to its versatile design the system is ideal suited for smaller and mid market companies.

**PRIMERGY
SX650**

This storage blade for PRIMERGY BX600 offers an easy and cost effective opportunity for server consolidation. Rack and tower servers with high capacity of local hard disks are operating primarily in the area of small and medium enterprises. Very often it is essential having local access on large amounts of data; this for example applies to the wide area of Computer Aided Engineering (CAE), where smaller workgroups locally have to work on and create very large models. Operation within confined environments as file servers as well as for Microsoft SharePoint Servers and Microsoft SQL Servers are popular usage cases.

**PRIMERGY
SX940 S1**

The PRIMERGY SX940 S1 Direct Attached Storage Blade Disk can be used to extend the internal storage capacity of PRIMERGY BX92x Server Blades. A maximum of four internal disk drives greatly extends the maximum amount of disk storage of a Server Blade. One Storage Blade occupies a Blade slot within the PRIMERGY BX900 S1 system unit; it is positioned either on the left or right to an adjacent BX92x Server Blade, or between the two. The 1x 4 or 2x 2 disk drives of one SX940 S1 are driven by 1 or 2 integrated, highly functional SAS/RAID controllers with 512 Mbyte cache and BU. Each controller provides RAID levels 0, 1, 5 and 6. The connection to each Server Blade is realized via a midplane link to the high performing PCIe x4 interfaces of each Server Blade's system board.

**PRIMERGY
BladeFrame BF200**

**PRIMERGY
BladeFrame BF400 S2**

PRIMERGY BladeFrame is the platform to set up an application-independent and service-oriented IT infrastructure. The Processing Area Network (PAN) combines stateless servers (pBlades) with unique virtualization and management software, thus reducing the existing infrastructure complexity and providing a dynamic, high-availability system.

PRIMERGY BladeFrame uses the PAN architecture to manage a pool of computing, storage and network resources which can be dynamically allocated depending on business requirements. The PAN Manager is the central instance for configuring, managing and monitoring both the physical as well as virtual servers. With the PAN Manager a server is no longer a device with a defined configuration, operating system and application, but a software-based definition that can be dynamically assigned as needed. The PAN architecture thus expands the benefits of server virtualization and provides an integrated concept for high-availability (N+1 failover) and disaster recovery. The result is considerable savings in operational and total costs.

PRIMERGY BX900 S1

PRIMERGY BX900 - The Dynamic Cube

The PRIMERGY BX900 – Dynamic Cube is a complete Dynamic Server Infrastructure in a single blade cube. This blade server can be dynamically adapted to different IT requirements, thereby reducing costs while increasing your IT agility. The PRIMERGY BX900 can accommodate up to 18 server blades in a 10U chassis.

Using Cool -safe™, our trademarked cooling concept, combined with power supplies with 90% efficiency and the embedded ServerView Power management software, it ensures truly dynamic power and cooling capabilities that save you money.

Equipped with the latest Intel VT processor technologies, very large memory capacities and state-of-the-art I/O performance, the PRIMERGY BX900 is optimized for any virtualization scenario. Its density and stackability enable flexible scaling to ensure complete investment protection.

PRIMERGY BX620 S4

PRIMERGY BX server blades represent the workhorses within the PRIMERGY BX600 blade server system. Server blades may also optionally be equipped with local hard disk drives and additional mezzanine cards as prerequisites for enhanced external connectivity. Based on those capabilities the PRIMERGY server blades enable customers to run various types of applications in either physical or virtualized environments. With their modular design for different requirements, the customer can create specific configurations to meet different usage scenarios.

The PRIMERGY BX620 S4 delivers optimal performance for enterprise environments with optimal memory and processor performance. This high-density server blade features low-voltage processors for better energy management. Up to ten dual socket server blades equipped with one to two Dual-Core CPUs of the Intel® Xeon® processor 5200 series with 6 MB shared second level cache or up to two Quad-Core CPUs of the Intel® Xeon® processor 5400 series with 2x 6 MB shared second level cache these server blades are designed for an optimal performance/watt ratio.

Model	Description	Details	Product Code	EUP (€)	Comments
Base unit configurations					
PRIMERGY BLADE BX620 S6					
	PY BX620 S6 Dual Server Blade	Dual Server Blade, base unit without processor and memory, for BX600 S3 (max. 10 Server Blades), 12 slots for DDR3 RDIMM or UDIMM memory modules (6 per CPU), 3x 2-channel GBit Ethernet LAN on-board, different configurable Storage Modules to drive (controller) the internal SATA or SAS hard disks, 2 bays for 2.5" SATA or SAS HDD's, RAID1 support for internal HDD's, graphics controller is part of iRMC S2 management controller.	S26361-K1355-V200	1.105,00	

PRIMERGY BX620 S5

The PRIMERGY BX620 S5 provides optimal functions for enterprise environments and offers improved features as regards main memory and processors. Up to ten of the dual socket server blades can be installed in a PRIMERGY BX600 S3 system unit. The BX620 S5 systems offer an efficient Cool-safe™ design with the latest generation of Dual- and Quad-Core Intel® Xeon® processor 5500 series CPUs as low-voltage, standard and high-performance versions so as to minimize power consumption and reduce cooling requirements in data centers. Due to the support of a high storage capacity with 12 DIMM slots, main memory of up to 96GB and memory speed of 1,333 MHz the BX620 S5 is ideally suited for front and mid-tier applications that require high availability, flexibility and performance efficiency.

PRIMERGY BLADE BX620 S6					
	PY BX620 S6 Dual Server Blade	Dual Server Blade, base unit without processor and memory, for BX600 S3 (max. 10 Server Blades), 12 slots for DDR3 RDIMM or UDIMM memory modules (6 per CPU), 3x 2-channel GBit Ethernet LAN on-board, different configurable Storage Modules to drive (controller) the internal SATA or SAS hard disks, 2 bays for 2.5" SATA or SAS HDD's, RAID1 support for internal HDD's, graphics controller is part of iRMC S2 management controller.	S26361-K1355-V200	1.105,00	

PRIMERGY SX650

To extend the internal storage capacity of a PRIMERGY BX620 S4 or S5 dual socket server blade, up to two PRIMERGY SX650 storage blades can be connected to one server blade.

With one PRIMERGY SX650 the internal storage capacity of a BX620 S4/S5 can be extended by up to 1,500 Gbyte. It occupies one additional server blade slot within the PRIMERGY BX600 S3 system unit, positioned at the right side of an adjacent server blade.

The 5 hard disk drives of one PRIMERGY SX650 are driven by a highly functional SAS/RAID controller with 512 Mbyte cache and BBU. This controller (HBA) installed in the BX620 S4/S5 provides the RAID levels 0, 1, 5 and 6. The connection to the SX650 is realized via a corresponding SAS cable which is dedicated for this configuration pair.

PRIMERGY SX940 S1

The PRIMERGY SX940 S1 Direct Attached Storage Blade Disk can be used to extend the internal storage capacity of PRIMERGY BX92x Server Blades.

A maximum of four internal disk drives greatly extends the maximum amount of disk storage of a Server Blade. One Storage Blade occupies a Blade slot within the PRIMERGY BX900 S1 system unit; it is positioned either on the left or right to an adjacent BX92x Server Blade, or between the two. The 1x 4 or 2x 2 disk drives of one SX940 S1 are driven by 1 or 2 integrated, highly functional SAS/RAID controllers with 512 Mbyte cache and BBU. Each controller provides RAID levels 0, 1, 5 and 6. The connection to each Server Blade is realized via a midplane link to the high performing PCIe x4 interfaces of each Server Blade's system board.

PRIMERGY NX650 NAS

The NAS solution NX650 provides shared disk capacity of up to 3,000 GB per unit for server blades in the BX600 S3 enclosure as well as for other servers in the datacenter LAN.
